

Event 1: Kick off Meeting

Date: 23rd-24th March 2021

Co-funded by the
Erasmus+ Programme
of the European Union

2nd Transnational Online Meeting between Asian and European partners of the “**CCP LAW-Curricula development on Climate Change Policy and Law (2020-2023, Erasmus+)**” project

The aim of the CCP_LAW project is to develop, test and adapt new curricula in the field of Climate Change (CC) Law. Specifically, the integration of an multidisciplinary educational programme on Global CC Policy and Law, offered at a level of Postgraduate diploma (PGDip) or as LLM will aim to address the need of a new generation of post-graduates in a LLM that will acquire a high-level expertise on environmental policies and CC law.

During the meeting, international partners discussed about the first implementation phase of the project which foresees a needs and status quo analysis on the existing curricula provided in higher education level on the subject matter. The expected results of the survey will provide feedback and input for the development of the curricula in the field of Climate Change (CC) Law. Therefore, both Asian and European partners will investigate their current contexts whereas transfer of knowledge between Europe and Asia will be facilitated.

Soon, the project will be present in social media and the project website will be on air, so as to provide with news about the project progress and results.

Stay tuned!
